## Overview

Get crisp and fast laser printing from the 2350dn Laser Printer from Dell™. With a true print resolution of up to 1200 x 1200 dpi, the Dell 2350dn produces razor-sharp printouts for both business graphics and text. It delivers high-performance printing of up to 40 ppm (actual print speed will vary with use) in a compact form factor and staggering maximum monthly duty cycle of up to 50K. Designed for high printing volumes and great usage demands, it has a standard paper input capacity of 250 sheets with 850 sheets of paper when fully expandable and also provides a duty cycle of up to 50,000 pages per month. Moreover, it is equipped with 400 MHz processor speed and 32 MB RAM.

The Laser Printer 2350dn includes the Dell Toner Management System™ - an intelligent toner and consumables monitoring program that proactively provides alerts when you are low on toner. It provides effortless setup and installation via USB port or IEEE 1284 Parallel Port. Additionally, it also provides the 10/100 Base T RJ45 Ethernet port to connect to the network. The Dell 2350dn is Energy Star® certified, making it 25% more power efficient than conventional models. Equipped with Dell OpenManage™ Printer Manager which is an easy-to-use network utility that provides a flexible and efficient means to manage, monitor, and generate reports for your printer fleet. With wide range of features, the 2350dn Laser Printer lets you print vivid, bright and vibrant printouts with ease.

This printer comes with a 3 Year Onsite Warranty.
