- Incorporates 128 MB memory (expandable up to 384 MB)
- Integrated facsimile offers a transmission speed of up to 3 seconds/page
- Comes with 3-Year Next Business Day Onsite Response

Overview

Enjoy printing, scanning, copying and standalone faxing with the Dell™ 2335dnr Multifunction Monochrome Laser Printer. With this printer, you can produce professional-looking documents and print borderless photos at a resolution of 1200 dpi. It gives you vivid and crisp prints at up to 33 pages per minute (ppm) for A4 and 35 ppm for LTR paper formats (actual print speeds will vary with use). The impressive 24-bit full color scanner and 50-sheet Duplex Automatic Document Feeder (DADF) work together to scan media at up to 600x1200 optical dpi, with the ability to scan directly into e-mails or other applications. Additionally, it copies media at a speed of up to 35 cpm in Single Document to Multiple Copies (SDMP) and 21 cpm in Multiple Document to Multiple Copies (MDSP) at 600x600 dpi optical resolution. The integrated facsimile is compatible with ITU-T Group 3 and is applicable to Public Switched Telephone Network (PSTN) or behind Private Automatic Branch Exchange (PABX). The facsimile offers a transmission speed of up to 3 seconds/page (Transmission time applies to memory transmission of text data scanned in Standard resolution with ECM using only ITU-T No.1 Chart). This printer includes the Dell Toner Management System™ - an intelligent software program that monitors your toner level and notifies you when your ink levels are low.

This printer comes with 3-Year Next Business Day Onsite Response.

Thank you for your business!
